### Class Overview:

6<sup>th</sup> grade students will study the ancient people that formed early cities of the Eastern Hemisphere. We will study and explore their social structure, governments, cultures, trade, agriculture, interdependence on other regions, and their religions. In addition, students need to master map skills, timelines, and basic economic theory.

### To achieve the best grade possible showing student mastery:

- 1) Students should reread the material given in class.
- 2) Students need to review notes
- 3) Formatives should be completed on time and with validity.

### Listed below are the projected units of study for Sixth grade Social Studies:

#### 1<sup>st</sup> Grading Period (HST: 6.1, 6.2, GEO 6.3, 6.4, 6.5, 6.6, HS 6.7, Gov 6.9, 6.10, ECO 611-6.16)
